EDUCATION

Vellore Institute of Technology, Chennai Campus

Chennai, Tamil Nadu

B.Tech in Computer Science and Engineering (GPA:7.23)

2026

Abu Dhabi Indian School

Abu Dhabi, UAE

AISSCE (CBSE), (91.6%)

2021

COURSE WORK

Programming & Software Engineering: Programming in C, Python, Java Programming, Object-Oriented Programming, Data Structures, Software Engineering

Systems & Architecture: Operating Systems, Computer Architecture, Compiler Design, Computer Networks

Data & Machine Learning: Database Management, Machine Learning, Social Network Analysis

Web, HCI & Security: Web Application Development, Human Computer Interaction, Cryptography and Network Security

EXPERIENCE

Java Full Stack Intern

Aug 2023 – Dec 2023

iamneo Edutech Pvt. Ltd. – Internship | [Certificate](#)

Remote

- Built a full-stack web application using Angular, TypeScript, Spring Boot, Spring Data JPA and MySQL, with user authentication, RESTful CRUD APIs, relational entity mappings, and validation on the frontend and backend
- Completed weekly engineering assignments covering Core Java, REST API design, SQL schema design and Angular-Spring Boot integration, using Git and Maven for version control and builds, and JUnit for testing

PROJECTS

FinLedger: Personal Finance Manager for India | *Java · Spring Boot · MySQL · React · Docker* | [Link](#)

- Developed a finance app with secure login, statement imports for 3 Indian banks, budget alerts and 187 tests
- Cut group settle-up payments by 65% over 1,000 simulated groups with a bill splitter that never loses a paisa
- Created a mutual fund tracker using daily fund prices, with annual returns matching Excel to 6 decimal places

Face Value: Anti-Scalping Ticket Exchange | *TypeScript · Fastify · PostgreSQL · Next.js · Docker* | [Link](#)

- Engineered a ticket resale platform with a price-time matching engine, event log and live WebSocket updates
- Sustained 10,000 concurrent claims at 1,573/sec with zero queue-order violations, capping resales at face value
- Secured venue entry with HMAC-SHA256 passes that expire in 30 seconds and are voided instantly on resale

Crop Doctor: Multi-Crop Disease Diagnosis | *TensorFlow · Keras · Gradio · SQLite* | [Link](#)

- Trained EfficientNetV2-S on field photos from India, Uganda and Ghana to 0.80–0.95 macro-F1 across 4 crops
- Uncovered a dataset bias inflating accuracy by 32 points with a background-swap test, rejecting 2 flawed models
- Designed per-crop calibrated abstention that routes 7–28% of unsure predictions to a SQLite review queue

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, SQL, C, C++, HTML/CSS

Backend: Spring Boot, Spring Security, Spring Data JPA, Fastify, REST APIs, WebSockets, JWT Authentication

Frontend: React, Angular, Next.js, Tailwind CSS

Databases: MySQL, PostgreSQL, SQLite

Machine Learning: TensorFlow, Keras, EfficientNetV2, Gradio

Tools & Testing: Docker, Git, Maven, JUnit, Vitest, Playwright

CERTIFICATIONS

AWS Certified Cloud Practitioner (CLF-C02) | Amazon Web Services | [Link](#)
